

# A REGION BUILT ON COAL

## MINE SUBSIDENCE BOARD

A history of mining in the Wyong region has brought economic and industrial benefits which have contributed to the growth of our community.

A legacy of continued mining is that large parts of our region are undermined. However, the Mine Subsidence Board is here to help home and business owners resolve any subsidence issues that may occur.

We're here to support those both in and out of mine subsidence districts by providing risk assessment, compensation, repairs, advice and by eliminating danger.

If you're buying or building in a mine subsidence district or in areas where old mine workings may be present, please contact your nearest office for advice on:

- Surface development guidelines
- Housing and construction techniques
- Mine subsidence issues
- Subdivision of land
