

Wallarrah No 2 – EA Table of Contents

ES.	Executive Summary	ES-1
ES-1	Proposed Development	ES-2
ES-2	Project Planning and Background	ES-7
ES-3	Summary of Environmental Impacts	ES-8
ES-3.1	Subsidence	ES-9
ES-3.2	Local Water Supply Scheme and Groundwater	ES-9
ES-3.3	Implications on Flooding	ES-10
ES-3.4	Social and Economic Issues	ES-11
ES-3.5	Noise Impacts	ES-12
ES-3.6	Air Quality Impacts	ES-13
ES-3.7	Health Issues	ES-13
ES-3.8	Ecological Impacts	ES-14
ES-3.9	Archaeology and Heritage	ES-15
ES-3.10	Land Use and Local Planning	ES-16
ES-4	Statement of Commitments	ES-17
1.	Introduction	1-1
1.1	Project in Brief	1-1
1.2	Project Objectives	1-6
1.3	Project Application Area	1-7
1.4	Key Stakeholders	1-10
1.4.1	Proponent	1-10
1.4.2	Government	1-10
1.4.3	Community	1-27
1.5	EA Structure	1-27
2.	The Proposal	2-1
2.1	Project Overview	2-1
2.2	Resource Description	2-1
2.3	Mining Constraints	2-3
2.4	Selected Mining Method	2-5
2.5	Proposed Mine Layout and Extraction Sequence	2-6
2.5.1	Mine Ventilation	2-11
2.5.2	Mine Plan Variations to Address Constraints	2-12
2.6	Operation	2-13
2.6.1	Production	2-13
2.6.2	Duration of Mining	2-14
2.6.3	Hours of Operation	2-14
2.6.4	Employment	2-14
2.6.5	Transport	2-14

2.6.6	Site Security	2-15
2.7	Geology	2-15
2.7.1	History of Coal Exploration in the Wyong Region	2-18
2.7.2	General Geological Structure: WACJV Exploration Areas	2-22
2.7.3	Data Acquired by the WACJV Exploration Program	2-26
2.7.4	Seismic Surveys	2-28
2.7.5	Coal Quality	2-29
2.8	Surface Facilities and Infrastructure	2-29
2.8.1	Tooheys Road Site	2-31
2.8.2	Buttonderry Site	2-33
2.8.3	Western Shaft Site	2-37
2.8.4	Stockpiles	2-39
2.8.5	Rail and Loading Facilities	2-39
2.8.6	Rail Transport	2-41
2.8.7	Waste Products	2-43
2.8.8	Roads and Access	2-44
2.8.9	Fuels and Chemicals	2-45
2.8.10	Power	2-45
2.8.11	Monitoring, Exploration and Ancillary Activities	2-46
2.9	Coal Processing	2-46
2.10	Products and Markets	2-46
2.11	Gas Extraction and Utilisation	2-46
2.12	Water Management and Water Pollution Control	2-48
2.12.1	Water Produced from the Mine	2-48
2.12.2	Mine Operations Waste Water Dam – Tooheys Road Site	2-49
2.12.3	Tooheys Road Reverse Osmosis Plant	2-49
2.12.4	Tooheys Road Site Water Pollution Control System	2-50
2.12.5	Buttonderry Site Water Pollution Control System	2-54
2.12.6	Sewage Treatment Plant	2-56
2.12.7	Water Balance	2-57
2.12.8	Water Quality	2-62
2.13	Construction	2-62
2.13.1	Tooheys Road	2-62
2.13.2	Decline	2-63
2.13.3	Intermediate Small Diameter Ventilation Shaft	2-65
2.13.4	Tooheys Road Infrastructure	2-65
2.13.5	Rail Loop and Spur	2-67
2.13.6	Buttonderry Site	2-68
2.13.7	Western Shaft	2-70
2.13.8	General Vegetation Clearing	2-72
2.13.9	Topsoil Management	2-72
2.13.10	Erosion and Sediment Controls	2-72
2.13.11	Landscaping	2-73
2.13.12	Construction Buildings and Facilities	2-73
2.14	Rehabilitation	2-74
2.14.1	Statutory Requirements	2-74
2.14.2	Final Land Use Options	2-75
2.14.3	Rehabilitation Objectives	2-76
2.14.4	Rehabilitation Plan	2-77
2.14.5	Erosion and Sediment Control	2-81
2.14.6	Revegetation	2-81
2.14.7	Completion Criteria	2-82
2.14.8	Monitoring and Research	2-83
2.14.9	Post-closure Maintenance	2-84
2.14.10	Rehabilitation of the Mining Area	2-84

2.15	Rail Line Subdivision	2-84
3.	Project Justification and Alternatives	3-1
3.1	World Reliance on Coal	3-1
3.2	Coal Use for Energy in Asia	3-3
3.3	Australian Coal Industry	3-5
3.4	The Wyong Coal Resource	3-7
3.5	Coal Alternatives – Other Energy Sources	3-7
3.5.1	Solar Energy	3-7
3.5.2	Wind Energy	3-8
3.5.3	Combustion Turbines	3-9
3.5.4	Biomass	3-9
3.5.5	Nuclear Power	3-9
3.5.6	Conclusion	3-10
3.6	Project Design Alternatives	3-10
3.7	Principles of Ecologically Sustainable Development	3-11
3.7.1	Precautionary Principle	3-13
3.7.2	Intergenerational Equity	3-14
3.7.3	Conservation of Biological Diversity and Ecological Integrity	3-15
3.7.4	Improved Valuation and Pricing of Environmental Resources	3-15
3.7.5	Consistency of the W2CP with the objects of the EP&A Act	3-15
3.8	Benefit Cost Analysis	3-17
3.8.1	Identification of Benefits and Costs of the W2CP	3-18
3.8.2	Economic Costs of the W2CP	3-19
3.8.3	Economic Benefits of the W2CP	3-19
3.8.4	External Costs and Benefits	3-20
3.8.5	Benefit Cost Analysis	3-22
3.8.6	BCA Justification for the W2CP	3-24
3.9	Project Justification	3-24
3.9.1	Project Viability	3-24
3.9.2	Consequences of Not Proceeding with the Development	3-25
4.	Legislation and Planning	4-1
4.1	Statutory Requirements	4-1
4.1.1	Environmental Planning and Assessment Act 1979	4-2
4.1.2	Part 3A of the Environmental Planning and Assessment Act	4-2
4.1.3	Application of other Provisions of the Environmental Planning and Assessment Act 1979	4-2
4.1.4	Other Approvals and Legislation that Must be Applied Consistently to Part 3A Projects	4-3
4.1.5	Other Approvals and Legislation that do Not Apply to Approved Part 3A Projects	4-3
4.2	Mining Act 1992 and Mining Regulation 2003	4-3
4.2.1	Subsidence Management Approvals	4-4
4.3	SEPP (Mining, Petroleum Production and Extractive Industries) 2007	4-4
4.4	Environment Protection and Biodiversity Conservation Act 1999	4-6
4.5	Protection of the Environment Operations Act 1997	4-7
4.5.1	Protection of the Environment Operations (Clean Air) Regulation 2002	4-8
4.6	Other State Legislation	4-8
4.6.1	Native Vegetation Act 2003	4-8

4.6.2	National Parks and Wildlife Act 1974	4-9
4.6.3	Heritage Act 1977	4-9
4.6.4	Aboriginal and Torres Strait Islander Heritage Protection Act 1984	4-10
4.6.5	Forestry Act 1916	4-10
4.6.6	Noxious Weeds Act 1993	4-10
4.6.7	Water Management Act 2000 / Water Act 1912	4-10
4.6.8	Conveyancing Act 1919	4-11
4.7	Local Environmental Plans	4-11
4.7.1	Wyang Local Environmental Plan 1991	4-12
4.7.2	Reasons Why Wyong LEP does Not Prohibit Part 3A	4-14
4.7.3	Wyang Shire Council Management Plan 2009/20010	4-18
4.7.4	Wyang Shire Residential Development Strategy	4-23
4.7.5	Central Coast Regional Strate	4-23
4.8	State Environmental Planning Instruments and Policies	4-24
4.8.1	NSW State Plan – A New Direction for NSW	4-24
4.8.2	SEPP No 14 – Coastal Wetlands	4-26
4.8.3	SEPP No 33 – Hazardous and Offensive Development	4-26
4.8.4	SEPP No 44 – Koala Habitat Protection	4-28
4.8.5	SEPP (Major Development) 2005	4-28
4.8.6	Wyang Employment Zone (WEZ)	4-28
4.8.7	NSW Rivers and Estuaries Policy	4-29
4.8.8	NSW Floodplain Development Manual	4-30
4.8.9	The NSW Wetlands Management Policy	4-31
4.8.10	NSW Groundwater Policies	4-31
4.8.11	NSW Salinity Strategy	4-31
4.8.12	NSW Greenhouse Plan	4-33
4.8.13	Energy Savings Action Plan	4-34
4.9	National Water Quality Management Strategy	4-34
4.9.1	Policies	4-34
4.9.2	Process	4-36
4.9.3	Guidelines	4-36
4.9.4	Water Quality Monitoring and Reporting	4-37
4.10	ANZECC Guidelines	4-37
4.11	Carbon Pollution Reduction Scheme	4-37
4.11.1	CPRS and the Coal Mining Industry	4-38
4.11.2	CPRS and the W2CP	4-38
4.12	BioBanking – Biodiversity Banking and Offsets Scheme	4-39
4.13	Catchment Action Plan for the Hunter – Central Rivers CMA	4-40
4.14	Water Sharing Plans	4-42
4.14.1	WSP for the Jilliby Jilliby Creek Water Source	4-42
4.14.2	WSP for the Central Coast Unregulated Water Source	4-43
4.15	Mine Subsidence Districts	4-43
4.16	Soil and Landscape Issues in Environmental Impact Assessment	4-46
4.17	Contaminated Sites	4-46
4.18	Managing Urban Stormwater	4-46
4.19	Environmental Assessment Process	4-47
4.19.1	Step 1 – Preparation of the Environmental Assessment Document	4-47
4.19.2	Step 2 – Lodgement and Exhibition	4-48
4.19.3	Step 3 – Planning Assessment Commission Inquiry	4-48
4.19.4	Step 4 – Assessment and Determination	4-49
4.19.5	Step 5 - Appeals	4-49
4.20	Strategic Inquiry into Potential Coal Mining in Wyong LGA	4-49
4.21	Independent Expert Panel NSW Southern Coalfields Inquiry	4-56

4.21.1	Discoloration of Water	4-56
4.21.2	Unpredicted Subsidence Impacts	4-57
4.21.3	Loss of Catchment Runoff	4-58
5.	Identification and Prioritisation of Issues	5-1
5.1	Identification and Prioritisation of Issues	5-1
5.2	Objectives of the Risk Assessment Process	5-1
5.2.1	Risk Assessment Methodology	5-2
5.2.2	Communicate and Consult	5-3
5.2.3	Establish the Context	5-3
5.2.4	Issue Identification	5-3
5.2.5	Risk Analysis, Evaluation and Treatment	5-4
5.2.6	Monitor and Reviewing the Issues	5-6
5.3	Summary of Risk Ranking and Results	5-6
6.	Subsidence	6-1
6.1	Context	6-1
6.1.1	The Longwall Mining Process	6-2
6.1.2	Subsidence Mechanisms	6-4
6.1.3	Overview of Systematic Subsidence Movements	6-5
6.1.4	Overview of Non-Systematic Subsidence Movements	6-6
6.2	Guidelines and Statutory Requirements	6-7
6.2.1	Mine Subsidence Districts	6-7
6.2.2	Mine Subsidence Compensation Act 1961	6-8
6.2.3	Subsidence Management Plan Process	6-9
6.3	Subsidence Modelling for W2CP	6-9
6.3.1	Initial Subsidence Modelling	6-9
6.3.2	Preliminary Layout Assessments	6-11
6.3.3	Iterative Design Process	6-13
6.4	Subsidence Predictions	6-14
6.4.1	Predicted Systematic Subsidence Parameters	6-20
6.5	Subsidence Effects	6-24
6.5.1	Vertical Subsidence	6-25
6.5.2	Ground Movement	6-25
6.5.3	Upsidence and Closure	6-26
6.5.4	Rock Mass Disturbance	6-27
6.5.5	Far Field Horizontal Movements	6-27
6.6	Subsidence Related Impacts	6-28
6.6.1	Groundwater	6-28
6.6.2	Surface Water	6-28
6.6.3	Houses and Structures	6-29
6.6.4	Public Infrastructure	6-31
6.6.5	Soils	6-32
6.7	Rehabilitation Techniques	6-36
6.7.1	Filling Cracks	6-36
6.7.2	Revegetation	6-36
6.7.3	Erosion Control	6-37
6.8	Monitoring	6-37
6.8.1	Inspections	6-37
6.8.2	Subsidence Data Collection	6-38
6.8.3	Recording and Reporting of Monitoring Results	6-38

7.	Regional Water Supply System	7-1
7.1	Description of the Water Supply Scheme	7-1
7.1.1	Mangrove Creek Dam - Stage 1	7-2
7.1.2	Mooney Mooney Dam	7-3
7.1.3	Mangrove Creek Weir	7-3
7.1.4	Mangrove Creek Weir - Somersby Transfer System	7-4
7.1.5	Mooney Mooney Dam - Somersby Transfer System	7-4
7.1.6	Somersby Water Treatment Plant	7-4
7.1.7	Mardi Dam	7-4
7.1.8	Mangrove Creek Dam – Wyong River Transfer System	7-4
7.1.9	Lower Wyong River Weir	7-4
7.1.10	Lower Wyong River Weir - Mardi Dam Transfer System	7-4
7.1.11	Ourimbah Creek Weir	7-5
7.1.12	Ourimbah Creek Weir- Mardi Dam Transfer System	7-5
7.1.13	Mardi Water Treatment Plant - Stage 1	7-5
7.1.14	Transfer System between Gosford and Wyong LGAs	7-5
7.1.15	Transfer System between Wyong and Gosford LGAs	7-5
7.1.16	Other Recent Water Supply Enhancements	7-5
7.2	Gosford-Wyong Councils' Water Authority Water Plan 2050	7-6
7.3	Water Supply Catchment	7-8
7.4	Supply Catchment within Proposed Mining Area	7-8
7.5	Water Sharing Plans	7-9
7.6	Potential Impacts from Mining to the Water Supply System	7-10
7.6.1	Potential for Alterations of Flow	7-10
7.6.2	Potential for Draining into Underground Mine	7-11
7.7	Impact Assessment	7-12
7.8	Implications from Strategic Inquiry	7-13
7.9	Commitment to Protect the Water Supply Catchment	7-14
8.	Groundwater	8-1
8.1	Scope	8-1
8.2	Existing Groundwater System	8-1
8.2.1	Existing Bores and Wells in the Region	8-2
8.2.2	Groundwater Occurrence in Unconsolidated Valley Sediments	8-4
8.2.3	Groundwater Occurrence in Hardrock Strata	8-5
8.2.4	Regional Piezometric Surface	8-6
8.3	Potential Groundwater Impacts	8-6
8.3.1	Groundwater Investigations	8-6
8.3.2	Shallow Storage Changes Arising From Subsidence	8-8
8.3.3	Loss of Groundwater Yield at Existing Bore Locations	8-8
8.3.4	Change in Groundwater Quality	8-10
8.4	Groundwater Mitigation Measures	8-10
8.5	Groundwater Monitoring	8-10
8.6	Impact Verification	8-11
9.	Flooding and Surface Water	9-1
9.1	Introduction	9-1
9.1.1	Independent Inquiry into Coal Mining in the Wyong LGA	9-3
9.2	Existing Flood Regime	9-3
9.2.1	Yarramalong and Dooralong Valleys	9-3
9.2.2	Hue Hue Creek	9-4
9.2.3	Importance of Existing Flood Regimes to W2CP	9-4

9.3	Assessment of Impacts	9-7
9.3.1	Overview of Potential Subsidence Impacts	9-7
9.3.2	Subsidence Impacts on Flooding in Yarramalong and Dooralong Valleys	9-8
9.3.3	Flood Hazard and Hydraulic Categories	9-11
9.3.4	Property Hazard Assessment	9-12
9.3.5	Property Access	9-23
9.3.6	Subsidence Impacts on Flooding in the Hue Hue Catchment	9-26
9.4	Mitigation Measures	9-28
9.4.1	Property Hazard Mitigation Measures - Yarramalong and Dooralong Valleys	9-28
9.4.2	Development Controls - Yarramalong and Dooralong Valleys	9-30
9.4.3	Access Mitigation Options - Yarramalong and Dooralong Valleys	9-31
9.4.4	Emergency Evacuation Routes - Yarramalong and Dooralong Valleys	9-33
9.4.5	Hue Hue Catchment	9-33
9.4.6	Mitigation Measure Summary	9-36
9.5	Conclusion	9-38
9.5.1	General Impacts	9-38
9.5.2	Impacts on Dwellings and Properties	9-38
9.5.3	Impacts on Flood Hazard and Risk	9-39
9.5.4	Impacts on Access Routes	9-39
9.5.5	Mitigation Options	9-39
9.5.6	Benefits	9-40
9.6	Surface Hydrology and Water Quality	9-40
9.6.1	AusRivAS Assessment Method	9-41
9.6.2	HABSCORE (USEPA Rapid Bioassessment Protocols)	9-42
9.6.3	Index of Stream Condition (ISC)	9-42
9.6.4	W2CP Hydromorphology Assessment	9-43
9.6.5	Existing Condition of Jilliby Jilliby Creek and Tributaries	9-45
9.6.6	Existing Condition of Little Jilliby Jilliby Creek and Tributaries	9-46
9.6.7	Water Quality	9-47
9.6.8	Anticipated Impact on Jilliby Jilliby Creek and Tributaries	9-48
9.6.9	Anticipated Impact on Little Jilliby Jilliby Creek and Tributaries	9-49
9.6.10	Regional Setting	9-52
9.6.11	Pre-Mining Work	9-52
9.6.12	Monitoring	9-53
9.6.13	Water Quality	9-53
9.6.14	Creek Stability	9-53
9.6.15	Rehabilitation	9-53
9.7	Lake Macquarie and Tuggerah Lakes Water Quality and River Flow Objectives	9-54
9.7.1	Water Sharing Plan for the Jilliby Jilliby Creek Water Source	9-55
9.7.2	Forested Areas / National Parks, Reserves and State Forests	9-56
9.7.3	Uncontrolled Steams	9-57
9.7.4	Controlled Rivers	9-58

10.	Community and Social Issues	10-1
10.1	Consultation Model	10-1
10.1.1	Establishing Our Objectives	10-2
10.1.2	Stakeholder List and Assessment	10-2
10.1.3	Identification of Issues	10-6
10.1.4	Changes in Emphasis of Community Issues	10-7
10.1.5	Engagement Techniques	10-8
10.1.6	Engagement	10-10
10.1.7	Reviews	10-13
10.1.8	Government Consultation	10-14
10.1.9	W2CP in the Community	10-14
10.1.10	W2CP in the Region	10-14
10.2	Social Impact Assessment Methodology	10-15
10.3	Definition of the Study Area	10-16
10.4	Existing Social Environment	10-17
10.4.1	Population Dynamics	10-18
10.4.2	Workforce	10-19
10.4.3	Employment	10-19
10.4.4	Infrastructure	10-22
10.5	Economic Environment	10-24
10.5.1	Overview of the Central Coast Economy	10-24
10.5.2	Central Coast Labour Force	10-25
10.5.3	Central Coast Consumption Indicators	10-28
10.5.4	Conclusion on the Central Coast Economy	10-29
10.6	W2CP in a Social and Economic Context	10-29
10.6.1	Expenditure	10-30
10.6.2	Employment	10-32
10.6.3	Accommodation	10-33
10.6.4	Impact on Community Infrastructure	10-35
10.6.5	Additional Benefits	10-36
10.7	Community Attitude	10-38
10.7.1	CSIRO Research on Quality of Life and Sustainability on the Central Coast	10-39
10.7.2	Central Coast Research Foundation Community Survey	10-40
10.7.3	The Strategic Inquiry	10-42
10.8	Human Health Risk Assessment	10-42
10.8.1	Health Effects of Particles	10-42
10.8.2	Health Effects of Diesel Emissions	10-44
10.8.3	Health Risks Associated with Exposure to Silica	10-45
10.9	Assessment Criteria	10-46
10.9.1	Health Risks Due To Particulate Exposure From The Project	10-47
10.9.2	Summary of Dust Related Health Risks	10-48
10.10	Health Risks Associated with Exposure to Noise	10-49
10.10.1	Noise Criteria	10-49
10.10.2	Noise Emissions from W2CP	10-52
10.11	Health Risks Associated with Drinking Water	10-53
10.11.1	Dust Entering Domestic House Rainwater Tanks	10-53
10.11.2	Subsidence Effects and Water Supply Quality	10-53
10.11.3	Spillages of Materials within the Water Supply Catchment	10-55
10.12	Social Management and Mitigation Program	10-55
10.13	Community Enhancement Program	10-56

11.	Traffic and Noise Assessments	11-1
11.1	Traffic Assessment	11-1
11.1.1	Existing Road Network and Traffic Situation	11-1
11.1.2	W2CP Site Vehicle Access	11-9
11.1.3	W2CP Traffic Generation	11-10
11.1.4	Traffic Impact	11-13
11.1.5	Impact Criteria	11-15
11.1.6	Intersection Performance	11-16
11.1.7	Mitigation Strategies	11-19
11.2	Noise Assessment	11-20
11.2.1	Infrastructure Options	11-20
11.2.2	Potential Noise Sources	11-21
11.2.3	Existing Noise Environment	11-23
11.2.4	Operational Noise Emission Limits and Guidelines	11-27
11.2.5	Road Traffic Noise Goals	11-28
11.2.6	Rail Traffic Noise Goals	11-29
11.2.7	Noise Modelling	11-29
11.2.8	Modelling Results	11-30
11.2.9	Road Traffic Noise Assessment	11-39
11.2.10	Rail Traffic Noise Assessment	11-39
11.2.11	Mitigation	11-40
11.3	Construction Noise Assessment	11-40
11.3.1	Decline Construction Plant and Equipment	11-40
11.3.2	Civil Infrastructure – Tooheys Road	11-40
11.3.3	Rail Loop and Spur	11-40
11.3.4	Buttonderry Site	11-40
11.3.5	Western Shaft Site	11-41
11.4	Construction Noise and Vibration Goals	11-41
11.4.1	Vibration Assessment Goals	11-42
11.4.2	Noise Emissions from Construction Plant and Equipment	11-44
11.4.3	Vibration from Construction Plant and Equipment	11-44
11.4.4	Construction Noise Modelling and Assessment	11-44
11.4.5	Vibration Modelling and Assessment	11-45
11.5	Recommendations	11-48
11.6	Off-Site Transport Noise	11-48
11.7	Conclusion	11-48
12.	Atmospheric Emissions	12-1
12.1	Introduction	12-1
12.2	Air Quality Criteria	12-1
12.2.1	Particulate Matter	12-1
12.2.2	Dust Deposition	12-1
12.2.3	Odour	12-2
12.3	Existing Air Quality	12-3
12.4	Dust Generation	12-5
12.5	Impact Assessment	12-7
12.5.1	Construction	12-7
12.5.2	Particulate Matter Impacts During Operation	12-17
12.5.3	Particulate Matter Impacts from the Ventilation Shaft	12-27
12.5.4	Odour	12-27
12.6	Climate Change	12-28
12.6.1	The Garnaut Review	12-29
12.6.2	Carbon Pollution Reduction Scheme	12-29
12.7	Greenhouse Gas Emissions	12-30

12.7.1	Greenhouse Gas Assessment	12-30
12.7.2	Methodology	12-30

Attachments and Appendices

Volume 1 - Environmental Assessment

Attachment 1 – Project Application

Attachment 2 - Environmental Assessment Requirements

Attachment 3 – Risk Assessment

Volume 2 - Appendices

Appendix A - Subsidence Assessment

Appendix B - Groundwater Assessment

Appendix C - Flood Impact Assessment

Appendix D - Hydromorphology Study

Appendix E - Site Water Management Strategy

Volume 3 - Appendices

Appendix F - Social Impact Assessment

Appendix G - Business and Resident Attitude Survey

Appendix H - Benefit Cost Analysis

Appendix I - Economic Assessment

Appendix J - Regional Context Analysis

Appendix K - Visual Impact Assessment

Appendix L - Air Quality and Greenhouse Gas Assessment

Appendix M - Health Risk Assessment

Appendix N – Noise Assessment

Appendix O - Traffic Impact Assessment

Appendix P - SEPP 33 – Hazardous and Offensive Development

Volume 4 – Appendices

Appendix Q – Ecological Assessment of the Surface Facilities

Appendix R - Ecological Assessment of the Mining Area

Appendix S - Indigenous & Non-Indigenous Heritage Assessment of the Surface Facilities

Appendix T - Indigenous & Non-Indigenous Heritage Assessment of the Mining Area
