Environmental Policy

EFFICIENT UTILISATION OF RESOURCES AND THE IMPLEMENTATION OF PROCESSES AND PROCEDURES THAT MINIMISE OUR IMPACT ON THE ENVIRONMENT

In conducting activities and operations our aim is to provide:

- Sound and efficient processes and procedures that minimise our impact on the environment;
- Comply with applicable environmental laws, regulations, tenement and permit conditions as a minimum standard;
- Integrate environmental and rehabilitation processes into exploration, mine planning, mining and transportation activities;
- Liaise with Stakeholders, seeking input and acceptance into the implementation of best practice environmental management systems;
- Education of all workers regarding their roles and responsibilities with regard to environmental management;
- Dedicated monitoring, audit and review processes to ensure the achievement and maintenance of sustainable environmental practices.
